A FAMILY SUMMER CAMP

Join Hippo students and their families for a unique British study holiday by the sea, designed for young learners travelling together with at least one parent. Set in the vibrant seaside city of Brighton, the programme takes place at Oxford International College (OIC) Brighton, offering a true and authentic campus lifestyle experience.

This special programme invites both students and parents to fully immerse themselves in college life, sharing the same environment, routines, and daily rhythm. From meals in the dining hall to life in traditional student accommodation, families experience together what it really means to live and study in a British college setting.

Students take part in engaging and interactive English lessons, while afternoons and evenings are filled with activities that promote independence, collaboration, and cultural exchange. Parents are not just accompanying guests, but active participants in the experience, embracing the simplicity and authenticity of campus life.

The programme includes supervised excursions, such as a full-day trip (e.g. Thorpe Park) and a half-day visit to explore Brighton, creating meaningful shared memories in an international environment.

PLAY-OFF QUALIFIERS - FAMILY EDITION

Designed for Hippo students who competed in the National Finals and narrowly missed direct qualification for the World Finals. This option allows students to continue their journey while sharing the experience with a parent.

The programme includes English lessons, targeted exam preparation, and an official English exam at the end, offering a new opportunity to achieve an international qualification - all within a shared college experience.

HIPPO SUMMER CAMP - FAMILY EDITION

A non-competitive English study holiday focused on language improvement, confidence-building activities, and cultural experiences, designed for students and parents to enjoy together. There is no final exam, making it ideal for those who want a more relaxed yet immersive learning experience. If the National Finals 2026 have not yet taken place, students may book the programme as Family Summer Camp and upgrade to Play-Off Qualifiers later, if eligible.
